

# PRINCE2 Practitioner Workshop Exam 2017 Update

## Overview

PRINCE2 is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management in the UK and is practiced worldwide.

PRINCE2 Practitioner accreditation is recognised as an international standard of Project Management competence. This course covers all the requirements to achieve PRINCE2 Practitioner accreditation (or re-registration).

PRINCE2 Practitioner is the second of the two PRINCE2 examinations that candidates are required to pass to become an accredited PRINCE2 Practitioner. Achieving this level confirms the candidate could apply PRINCE2 to the running and managing of a non-complex project within an environment supporting PRINCE2.
